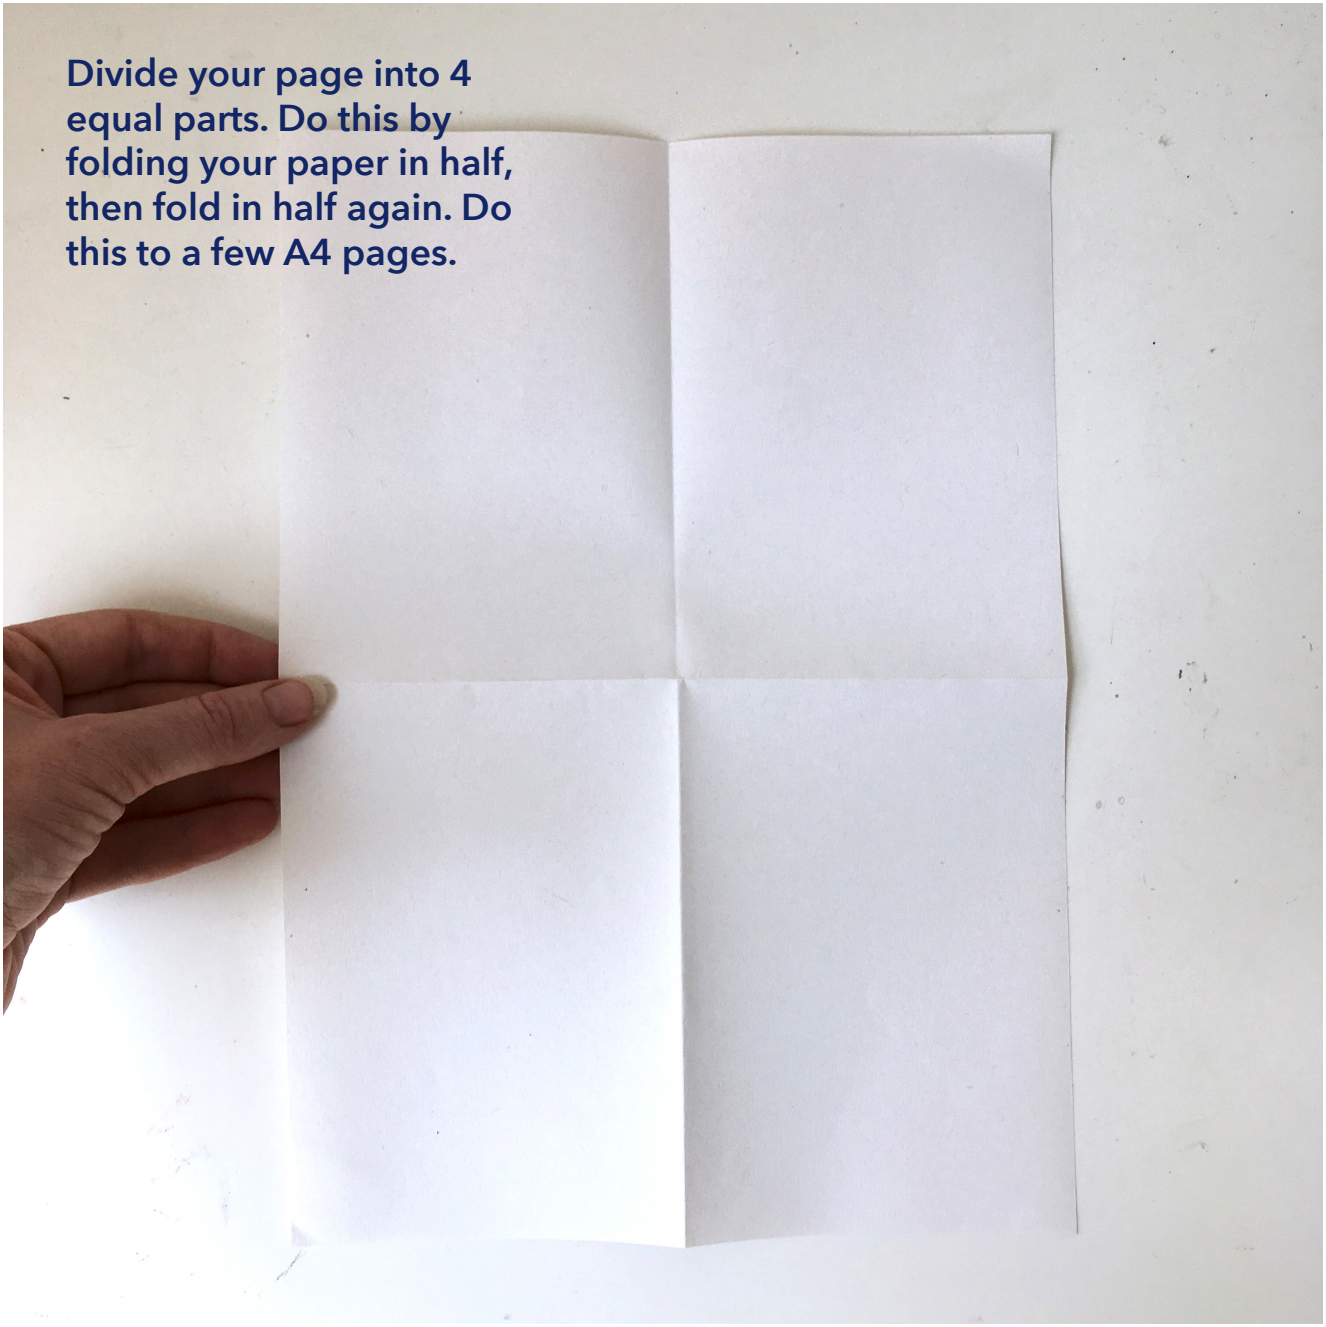
WHAT'S IN YOUR FRUIT BOWL

WHAT YOU WILL NEED:

CAMERA
PENCIL
4 X A4 PAPER
ACRYLIC PAINT
PAINT BRUSH
WATER
SCISSORS
GLUE

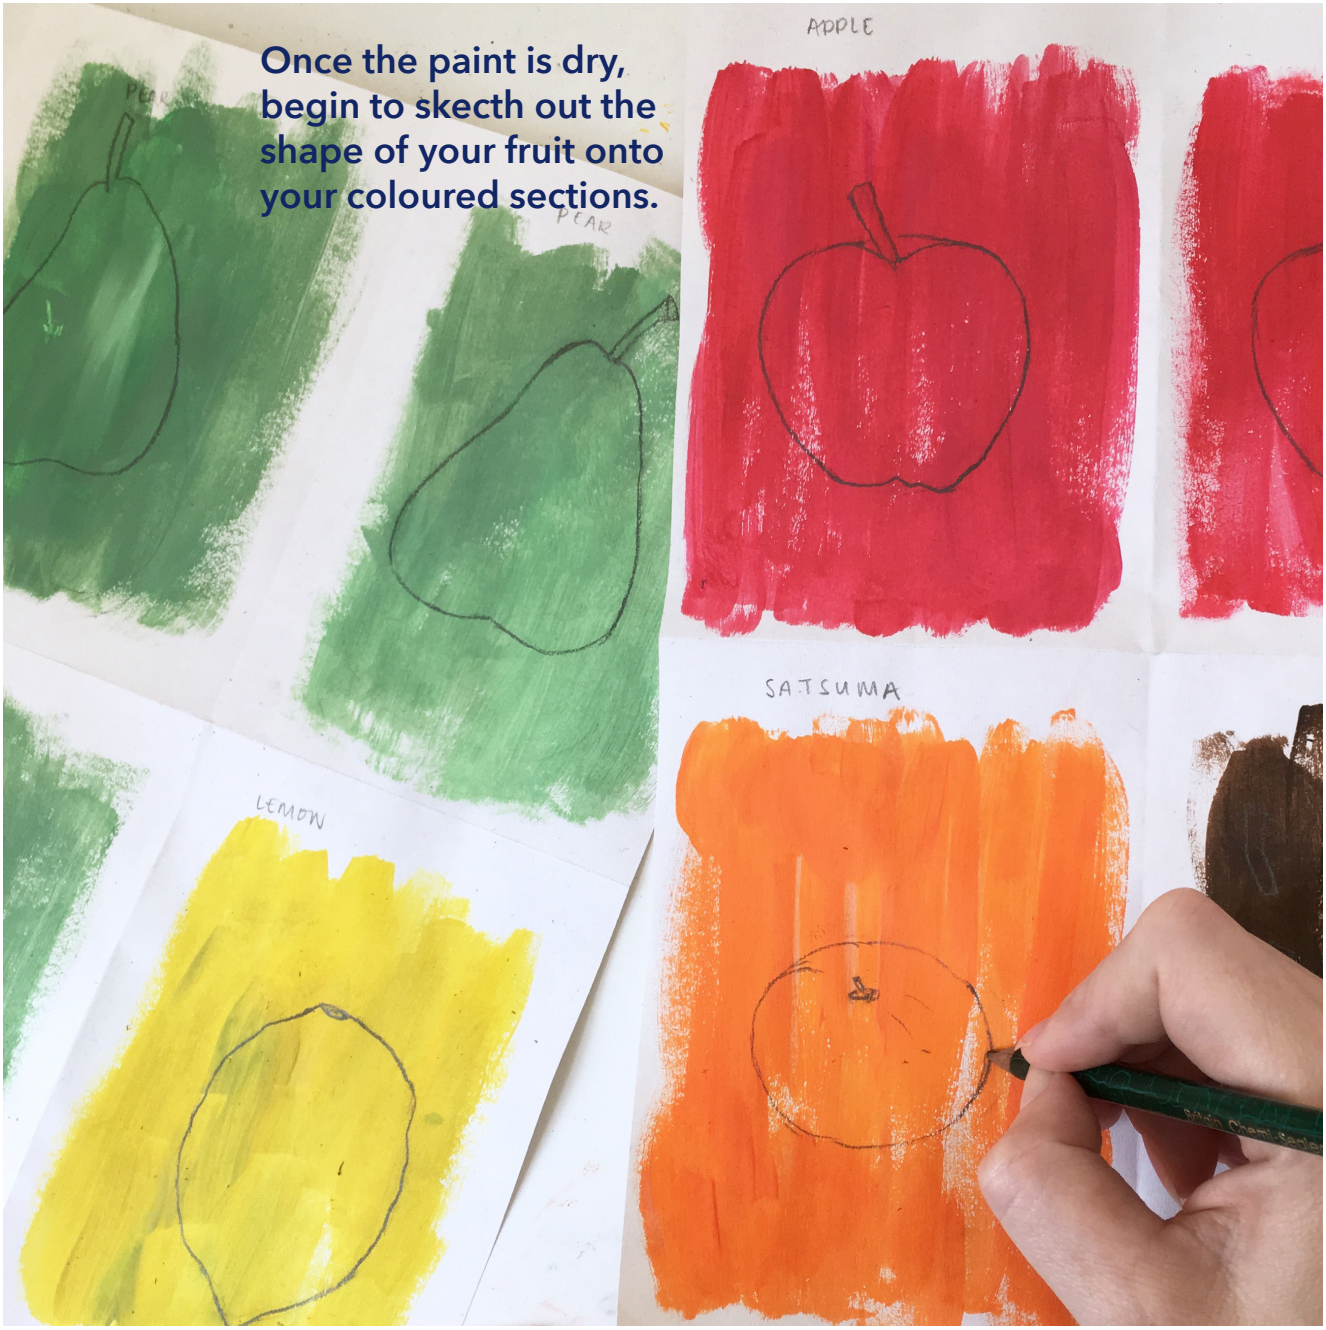
Take a photograph of your fruit bowl.

Make a list of the fruit you have and count how many fruit you have of each type.



Divide your page into 4 equal parts. Do this by folding your paper in half, then fold in half again. Do this to a few A4 pages.

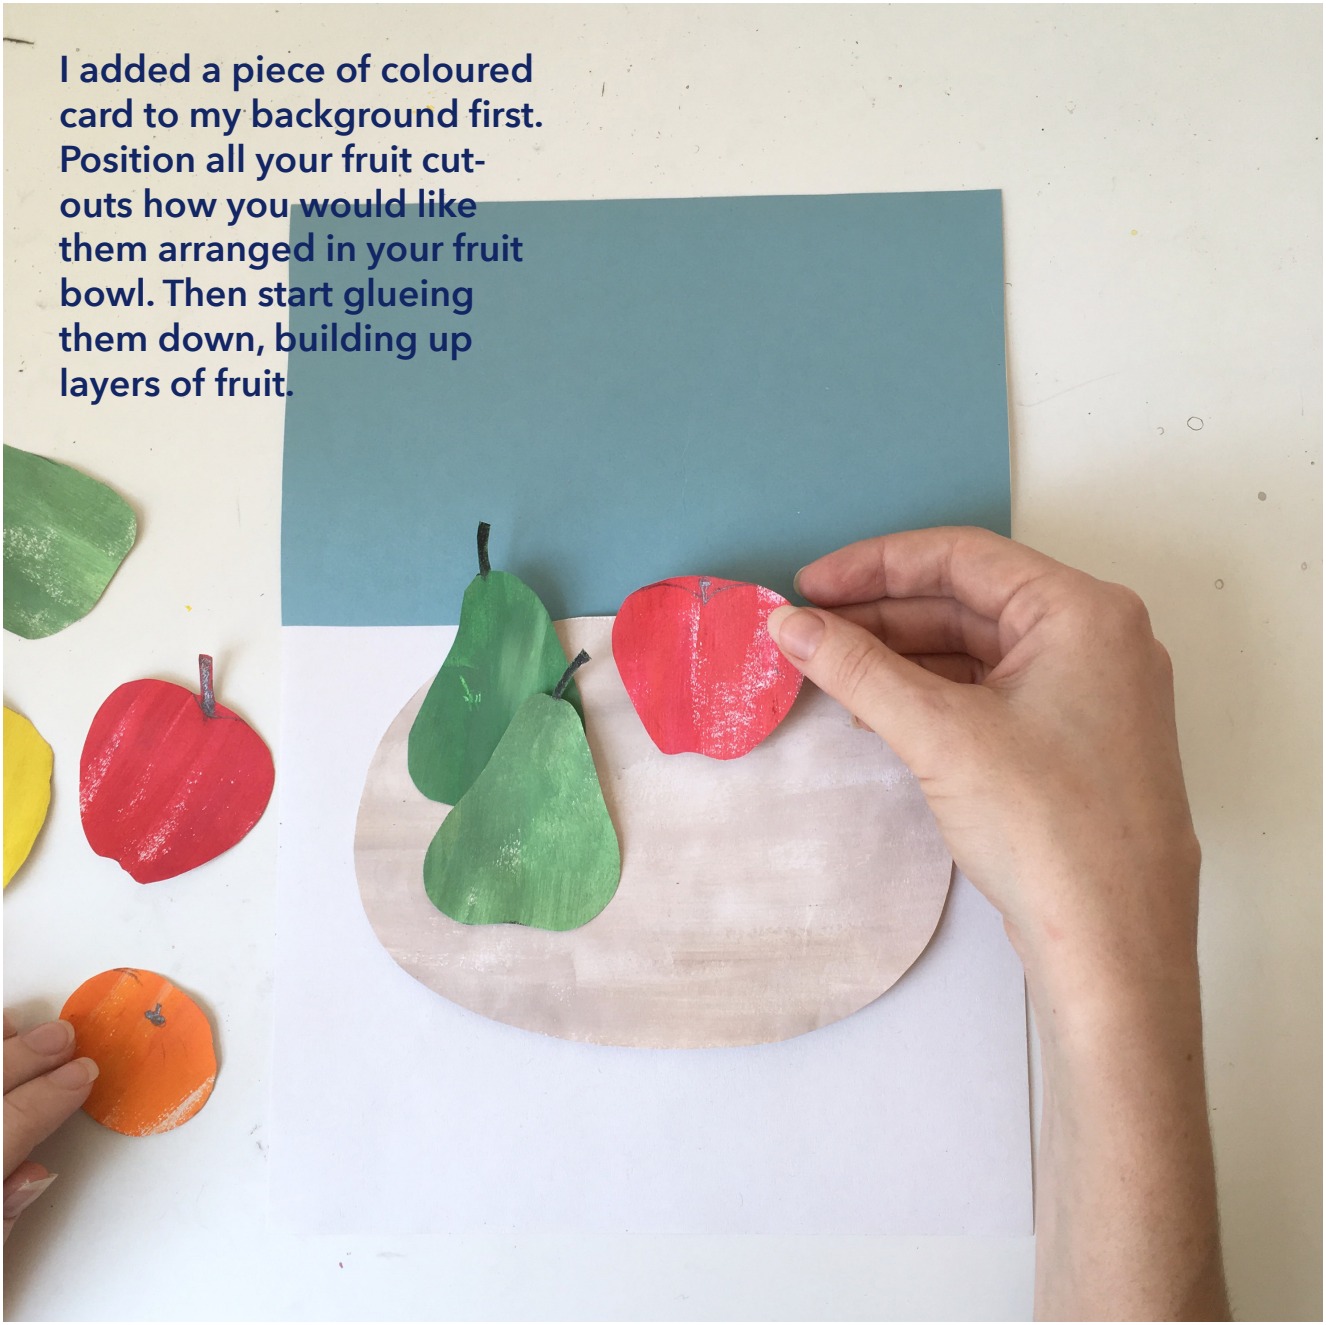
Write the names of each fruit in each quarter section to remind you what fruit colour you are painting.
PEAR
LEMON
APPLE
APPLE
SATSUMA
Also paint the colour of your bowl on a new A4 page. Don't forget to have fun mixing colours!



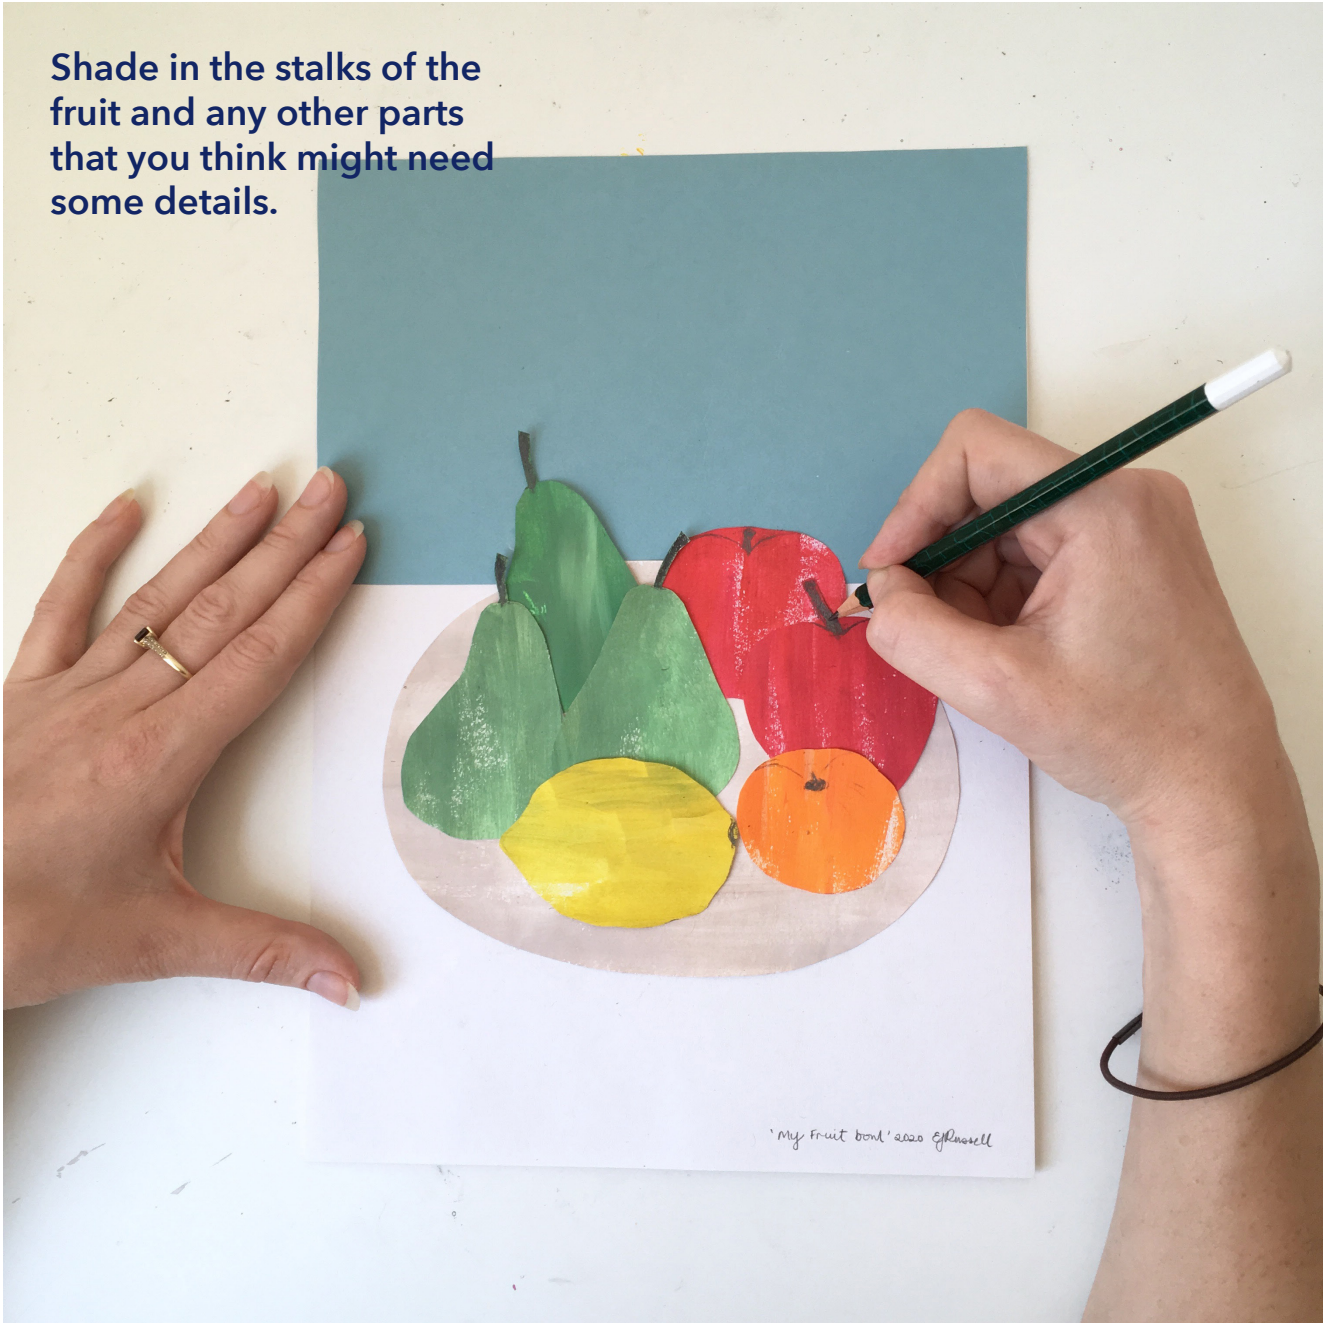
Once the paint is dry, begin to skecth out the shape of your fruit onto your coloured sections.
APPLE
PEAR
LEMON
SATSUMA

Cut out your fruit bowl (or plate), and all of your fruit.

I added a piece of coloured card to my background first. Position all your fruit cut-outs how you would like them arranged in your fruit bowl. Then start glueing them down, building up layers of fruit.



Shade in the stalks of the fruit and any other parts that you think might need some details.



Think of a title for your artwork, write this at the bottom corner, along with the date and your signature.

'My Fruit bowl' 2020 EJRussell
